

Allegiant Services: **Database**

Allegiant develops strategies for collecting, organizing, and distributing information across your organization to meet specific business objectives. While Allegiant can help you with most any database issue, typical work performed includes:

Readiness Assessment

- Information collection and dissemination strategy
- Organizational environment appraisal
- Technology assessment
- Process Mapping and Documentation
- Business case development

Development

- Database Development
- Hardware and Software Selection
- Business Intelligence platform development
- Software / Hardware integration

Deployment

- Hosted Solutions
- Client maintained solutions

Allegiant data services can be provided on an as needed basis, or as one component of a complete and integrated loyalty management solution for your company. Allow us the opportunity to partner with you and experience how Allegiant delivers solutions that Harness the Power of Loyalty™ for your business.
